HARRIMAN'S THREAT GOES.

BILL TO CHECK A HOSPITAL CAMP HE DOESN'T WANT.

Health Commissioner Lederle Wishes to Send Consumptives to Orange County, Where Mr. Harriman Owns Land -Measure to Prevent It Almost a Law

When Health Commissioner Lederle got back to work yesterday from a long vaca-tion he found that E. H. Harriman had kept a promise, made some time ago, that be would do all in his power at Albany, where he has friends, to stop the Health Department from putting a sanitarium for consumptives at Central Valley, Orange county. At least, there is a bill at Albany now that Dr. Lederle and the other friends of the sanitarium project regard as a direct

blow at their plans.
Several months ago a number of physicians and others interested in the car of consumptives made an appeal to the Health Department to try to arrange for consumptives' sanitarium. Dr. Lederie looked over their plans and drawings and soon made up his mind that he would not be able to put that scheme in operation, at once, anyway. The main objection to it was that it called for an outlay of from \$300,000 to \$400,000.

Then Dr. Lederle and those who has become actively interested in the case of consumptives planned a sanitarium on email scale at Central Valley. They were encouraged in that by Charles F. Fowler of Central Valley, who offered them a large tract there for a merely nominal rent for

tract there for a merely nominal rent for two years.

Dr. Lederle and a committee visited the place, found it highly desirable for the purpose and then asked the Board of Estimate and Apportionment for an appropriation of \$35,000 to start the sanitarium.

Then, as the enthusiasm of the friends of the project was at its highest, opposition developed in the person of Mr. Harriman. He owns some 17,000 acres in and around Central Valley and belongs to a club that goes to the place for a couple of months in the winter. The club has several houses, but the nearest, according to a man who but the nearest, according to a man who has been there, is a mile away from the track where the sanitarium will be put up

has been there, is a mile away from the track where the canitarium will be put up if the plan goes through.

Mr. Harriman took a stand that was very irritating to the friends of the project as several wealthy men had promised to aid the canitarium in every way possible. Mr. Harriman, according to a man who ought to know, said he didn't want the sanitarium there and that he would prevent its going there if he had to have a bill introduced at Albany to kill it.

One of the men interested in the sanitarium said last night:

"Rather than fight Mr. Harriman and possibly defeat our own purpose by doing so, it may perhaps be better to have him withdraw his bill. Then we can move to another part of the State. Central Valley is not the only town on the map.

"As for Commissioner Lederle's application for an appropriation, he can get that any time that he wants it. The plan is now to send about sixty consumptives away from the city for nine months. That will be an object lesson. Later we can do things on a greater scale."

ITHACA, N. YOUNG DIPLOMATS CUT. Mrs. Page Excludes Attaches of Foreign

Legations From Her Hunt Ball. WASHINGTON, April 17.-Mrs. Thomas Nelson Page entertained at a hunt hall to-night in honor of her daughters, Miss Florence Field and Mrs. Preston Gibson of Chicago. The dancing party, which was preceded by a dinner company, was limited to about seventy guests, among whom were Miss Christine Roosevelt and Miss Janet Fish of New York. The men wore

red coats and the girls broad ribbon sasher to match Something of a sensation was caused when it was found that Mrs. Page declined to invite any of the attachés of the foreign legations or embassies to her house, thus cutting out some of the most eligible dancing partners It has been intimated that Mrs. Page's objection to young foreigners is that they are not diligent enough in showing their appreciation of the constant social

favors showered upon them. This will be a shock to the young diplomats, as they have been accustomed to receive nothing but homage from the mothers of marriageable girls. In fact, before a new bachelor member of the Diplomatic Corps has time to unpack his luggage in Washington he is besieged by invitations to dinners, luncheons and teas One of the most popular men declared first or second day in Washington.

Mrs. Page's cut is not the first given the young diplomats, as Miss Kean refused to invite men to her social functions who had not been punctilious in their social duties

LECTURE BY PROF. DELITZSCH. Emperor and Empress Attend - A Description of Ancient Babylon.

Special Cable Despatch to THE SUN. BERLIN, April 17 - Prof. Delitzsch, the distinguished Assyriologist, delivered tonight his third lecture at the Singakademi before a brilliant assembly, including the Emperor and Empress, Admiral Hollman, Dr. von Luncanus, Baron von Rheinbaben Prussian Minister of the Interior, and

Baroness von Rheinbaben. The lecture was a strictly objective description of Prof. Delitzsch's journey and the scene of his labors. No question of polemical character was raised.

Beginning with the quotation "Had I the wings of a dove," Prof. Delitzsch described ancient Babylon as the Holland of an-

of Munich or Dresden.

In one part of his lecture the professor spoke of a rider separating from his horse, whereupon the Empress, who was recently thrown from her horse, looked at the Emperor and laughed.

Upon the conclusion of the lecture the Emperor thanked Prof. Delitzsch with evident cordiality.

A MISTAKE IN FLEETS.

Special Cable Despatch to THE SUN BERLIN, April 17 .- The visit of part of he American European fleet to Marseilles has led the newspapers here to fall into the mistake of supposing that it is identica with the North Atlantic squadron, which was to have made a visit to Europe this summer. The lattef was the fleet that the Kaiser wished to take part in the Kiel manœuvres. The declination of the invitation by President Roosevelt caused

onsiderable discussion at the time. The Tageblatt falls into the error, and, in commenting on the deprecation by the Washington Government of the unfriendly interpretation in Germany of the President's action in declining the invitation, says such filmsy explanations will not deceive any one.

CAPT. LA VIGNE INJURED.

Dashed to Death Against Trolley Car. Capt. Alexander La Vigne, attached to the telegraph bureau of the Brooklyn Fire Capt. Alexander La vane, the telegraph bureau of the Brooklyn Fire Department, was severely injured yesterday afternoon in a runaway accident. His wagon was wrecked and his horse killed. In a department light wagon he was driving down Vanderbilt avenue at 2:30 yesterday afternoon, when the horse became frightened by an automobile at Plaza street. With the bit between his teeth, the animal galloped down Vanderbilt avenue to Bergen street, where it collided with a Marcy avenue car.

Capt. La Vigne was thrown out and received a bad scalp wound and a fracture of the right hand. He was attended by an ambulance surgeon and removed to his home, 113 Madison street.

The horse struck the car head on and was killed almost instantly.

JURY AGAINST HIM AFTER 12 HOURS' CONSIDERATION.

Absence of Nolan, Chief Witness at the First Trial, Led to Expectations of an Acquittal-Will Be Sentenced

POLICY KING ADAMS GUILTY.

Tuesday-Prisoner Not Locked Up. Albert J. Adams, the policy king, was convicted at 11 o'clock last night by a jury that had been considering his case for nearly twelve hours. He was accused of knowingly having in his possession paraphernalia with which the game of policy s played.

It was his second trial and the conviction was a surprise not only to the defendant, but to his lawyers, one of whom was his son, A. J. Adams, Jr.

Assistant District Attorney Schurman who was the prosecutor at both trials was much elated. This is likely to be the last criminal case which Mr. Schurman will try.

Application will be made on Tuesday to Justice Scott for a certificate of rea sonable doubt and a delay in the execution of judgment. The case will be carried to the Court of Appeals. It will be the first to go to the higher courts on a number of xuestions which will be raised upon the Goddard anti-Policy law, which makes the knowing possession of policy parapher nalia a crife.

The jury went out at 11:15 A. M. Rumors which reached the hangers on in the Criminal Courts Building were that Adams would be acquitted and the defence was happy up to the time the jury came in for instructions about 11 o'clock. The foreman asked if possession of policy paraphernalia was presumptive evidence of guilland Justice Scott said it was under the law. From that time, until the jury returned at 10:55 with a verdict of guilty, al sorts of rumors were prevalent as to the way the balloting was going.

Adams showed no emotion when the verdict was announced. Some of his retainers in the rear of the court room could not repress a sigh. His lawyer, Mr. Ridg-

way, asked for delay in sentencing.

"I will remand the prisoner until Tues day." said Justice Scott, who had heard both trials, "and in consideration of his physical condition I will remand him in the custody of the Sheriff. He need not be locked up.

Deputy Sheriffs Bell and Kelly took charge of Adams. After the court was cleared the Adams party went into the main corridor of the Criminal Courts Building and had a conference. Adams said that he had nothing to say for publication. One of his party said that there was no doubt of

a reversal of the case on appeal.

The conviction of Adams caused espe cial surprise in view of the fact that William E. Nolan, the prosecution's chief witness disappeared before the re-trial.

The fact that Mr. Ingalls, who was one of the foremost men in the National Democratic party in 1896, which bolted the regular ticket because Bryan was nominated on a free-silver platform, now seeks him out may be regarded by some as important.

"I accepted an invitation by wire to dine with Mr. Ingalls," said Mr. Bryan. "Mr. Ingalls and I have known each other for some years." It may also be considered as significant that John W. Tomlinson of Birmingham, Ala., who was defeated as a candidate on the Democratic ticket in 1900 for Governor of Alabama and did much stumping in the South for Bryan in both of his campaigns, was in the city to-day.

Mr. Tomlingon acknowledged that he

It was about twelve inches long and an inch in diameter, wrapped in brown paper, and was sealed at both ends with tar. On one side in red paint was the word "Red."

Eichler started with the thing for the police station when some one in the crowd suggested that he had better be careful. The policeman thought so, too, and walked on tiptoes the rest of the way, holding the object at arm's length. The crowd followed him at what they considered a safe distance.

At the station Eichler laid the mysterious package on the desk and announced to Sergt. Shibles that he had picked up a stray

"Take it out of here!" yelled the sergeant. Eichler, still on tiptoes, carried it to the Bureau of Combustibles, where the experta said that they thought it was nothing but an ordinary piece of fireworks. They will make a more thorough examination to-day.

The policeman seized the young man and asked him what he was doing.

"I've been sent by God to destroy all the Christian churches in this city," he said "I've done the same thing to the church just below."

The policeman found that a big window in All Souls' Unitarian Church had also been broken. He took the young man to Bellevue Hospital, where the doctors put him in the insane pavilion. He said he was Isidor Ortman of 118 Essex street.

OPENING UP THE BRONX. Haffen Wants Streets in a District Greater Than All Manhattan.

Borough President Haffen of The Bronz ore the Board of Estimate yesterday a plan for opening up new land in West-chester for residential purposes. The new land contains about 14,300 acres, or some 2,000 acres more than Manhattan. Mr. Haffen asked the board to adopt a proposed improvement map covering twenty-five square miles. According to Mr. Haffen's engineers, it is necessary for an improve-ment map to be adopted by the Board of Estimate so that the property owners and prospective purchasers know where the streets will be and the grades and widths of thoroughfares. There was little opposition to the map yesterday and at the next meeting of the board severa city officials said that President Haffen's

street plans would be adopted. The map opens up 420 miles of streets through the section bounded by the Bronx River on the west and Long Island Sound and the East River on the east and south. The ection is divided by the Bronx and Pelham Parkway. North of this Parkway there is a section which was laid out by the old Board of Public Improvements

COURT TO CANTOR: "HURRY UP. Borough President Ordered to Complete Riverside Drive Plans.

Riverside Brive Plans.

Supreme Court Justice McCall yesterday directed Borough President Cantor to complete the maps and plans for the extension of Riverside Drive and Parkway, as authorized by the Legislature in 1897. This decision arose out of the application of the Lansing Improvement Company and a number of other property owners above 152d street for a mandamus to compel President Cantor to go ahead with the work, alleging that nothing had been done for two years and that the property owners had suffered serious financial injury by the delay.

"While recognizing that the court should be careful to cause no unnecessary embarrasement to the city authorities, nevertheless." says Justice McCall, "it is equally its imperative duty to compel the authorities of the city to comply with the plain requirements of the statute where citizens interests are to be conserved and where there seems, as in this case, to have been unnecessary and unjustifiable trifling."

after the couple had been thrown from an automobile near Paris. These measures were nothing less than the removal of the heads of Fair and his wife from their bodies and their careful preservation, in order that the skulls might show which person received the graver injuries.

The executors foresaw trouble should Mrs. Fair's relatives lay claim to half of the estate. When the bodies reached here Drs. Calloway and Robinson were called in and decapitated them. The skulls showed clearly that Mrs. Fair was far more badly hurt than her husband, as the whole side of her face was torn away and it would have been impossible for any one to see blood trickling down her face, as Mas testified.

Mas and Morane both swore that the top of Mr. Fair's head was crushed in by a blow against a tree. This isn't true, as the skull shows no fracture, only a deep indention. Probably Mr. Fair would have survived but for a powerful concussion of the brain, due to his weight. This convincing testimony of the skulls will be presented by the heirs to show that the French witnesses have not told the truth.

New Haven, April 17.—By the arrest to-night of Michael J. HERLIHY "BROKE" FINANCIALLY

Police Captain Herlihy, who is under indictment for neglect of duty in the El-dridge street precinct in 1900, appeared before Justice Scott in the criminal branch

before Justice Scott in the criminal branch of the Supreme Court yesterday, and made the official announcement that he was broke financially. Assistant District Attorney Rand appeared before Justice Scott yesterday and made a motion that Herlihy's trial be put on the calendar for May 4. Herlihy spoke for himself and asked for six months' delay.

"Your Honor, he said, "I have spent all the money I have earned during my honorable career of twenty-six years on the police force and now I am living on money borrowed from friends. I am under suspension, and the rules of the Police Department require that I report twice each day at my station and sign the blotter. I am, therefore, unable to engage in any other honorable work. I want to ask for a delay in this case of from five to six months in order that I may earn money and get counsel to defend me."

Mr. Rand's request was granted.

MASCAGNES NEW OPERA. It Will Be Based on the Wars of the Thir-teenth Century in Southern Italy.

MILWAUKEE, April 17.-Sigismund Elfred of Milwaukee is to write the book for fred of Milwaukee is to write the book for Mascagni's next opera. He was asked to dramatise an Italian story written by the composer twelve years ago, but was unable to complete his work until this year. He has finally finished the scenerio and most of the lyrics, and when Mascagni was in Milwaukee, recently, a deal was closed.

The new opera will be based on the wars of the thirteenth century in Southern Italy. Mascagni has already begun the composition of the music for the opera.

Mascagni and Elfred were friends in Berlin in 1888.

A Travelling Salesman Shot by a Gambler to Birmingham, Ala.

BIRMINGHAM, Ala., April 17.—Elias Lathem, 25 years of age, travelling sales-man for a New Orleans firm, but living in man for a New Orieans firm, but living in this city, was shot and killed to-day in the lobby of the Morris Hotel by Glen Havis, 26 years old, a well-known man-aboutown and a gambler. William Wise, a wholesale liquor dealer, was arrested as an accessory to the murder. Havis pleaded self-defence.

Lathem pulled a pistol after being assailed with a billy in the hands of Wise, and on sight of the pistol Havis fired.

Mrs. Margaret Foley, who is a paralytic, was sitting beside a kerosene lamp in her flat at 1787 Third avenue last evening when a gust of wind caused it to explode. She was severely burned before Policeman Flood broke in the door of the flat and resound her.

While Amory's Own Expert Was Telling That Had He Seen the Company's Books He'd Have Made a Different Report-Philbin-Crimmins Letters -Vreeland Shows Attack to Be Bascless While the bears were raiding Metropo

treet Railway stocks in Wall Street yesterday, as President Vreeland many weeks ago said that William N. Amory and his lay and professional associaties had pla more interesting testimony about Amory and his great revelations was being adduced in Amory's libel suit against Mr. Vreeland. at the hearing before Magistrate Barlow. It was shown especially that, had Amory or any of his outfit made any attempt to compare the books of the company with the company's reports to the State Railroad Commissioners, in which Amory says he discovered that the company had "robbed of millions," it would have been found that the corporation instead of having a deficit of more than \$18,000,000 as he alleges, really has a surplus of \$5,000,000.

This testimony was given by Max Teichmann, the expert accountant of Baltimore, whom Talbot J. Taylor, son-in-law of James R. Keene, hired for the express purpose of verifying Amory's deductions. Teichmann made a report to Taylor, which showed that the company had a deficit of \$18,974,338.10, but he then stated explicitly that his finding must be regarded as only tentative and could not be established without an examination of the company's books. Apparently, Amory, Taylor and the rest

didn't want to have anything to do with
the company's books.

Another interesting feature of yesterday's
hearing was certain documentary evidence
concerning Eugene A. Philbin, whom President Roosevelt, when Governor of New
York, made District Attorney.

Mr. Philbin, on Thursday, permitted to be
printed in the newspapers copies of his
report on Amory's charges, which report
he had already sent to the Metropolitan
company with a request for an explanation of the alleged "irregularities." The
raid on Metropolitan stock yesterday is
attributed almost entirely to the publication of Philbin's report, before officers of
the company had time even to examine

the company had time even to examine it, to say nothing of replying to it. MORE ABOUT PHILBIN. At the opening of the hearing Mr. Nicoll called for the production of the correspondence between Mr. Philbin and John D. Crimmins in reference to the Amory "discoveries." Philbin produced two letters, and Mr. Nicoll offered both in evidence and then read them.

Mr. Philbin first wrote to Mr. Crimmins from Lakewood, on Feb. 1, 1903, as follows:

Went to the Help of the Heyts, Whose Auto He Recognized.

Mr. and Mrs. H. W. Hoyt of Buffalo and a Mrs. H. B. Baldwin of this city were riding in a big red automobile in Jerome avenue last night when at 161st street Mounted Policeman Oshorn shouted to them that the machine was sing too feet.

The machine didn't slow up, the policeman says, and he chased it, catching it after a ride of half a mile.

Then he put Mr. Hoyt's driver, Edward A. Hayden, under arrest. The whole party went to the Highbridge police station. Mr. Royt offered ball, but admitted he had no property in this city.

He said, however, that he owned a \$100,000 piece of property opposite the Hotel Iroquois in Buffalo. The police were thinking that affects the consequences might be. Mr. — also said fame and pieces in Buffalo. The police were thinking that affects the consequences might be my reward. EUGENE A. PRILDIN. CRIMMINS SAID "KEEP OUT."

To Mr. Philbin Mr. Crimmins replied from Charleston, S. C., under date of Feb. 23, as follows:

from Charleston, S. C., under date of Feb. 23, as follows:

Dear Mr. Philbin: Met Mr. A. [Supposedly Amory] Phantom hunt. Messrs. Ryan and Whitney, who have been absolutely in power, besides being bankers, elways have the best legal talent, such as Root, Stetson, Joline and ex-Judge Brown; and Whitney, being an able lawyer, have not permitted themselves to go beyond the law. Bookkeeping reports are confusing and, to a novice, intricate and beyond understanding, until explained.

Stockholders can examine books—a request from you in the name of these stockholders will give you all the opportunity you require. Before you commit yourself, be sure of the ground. There is nothing serious, I am confident. Possibly liberal fees have been paid to reputable attorneys and how they expended the money the law does not require them to answer. The aggregate would not be a half a million.

I don't believe you want Amory for a client, As I telegraphed you, no stockholders would object to your recovering from the company any moneys fraudulently obtained. You will not find any. That, however, you can, without going to court, ascertain with much more credit than by hunting the question with a band, which stockholders would have you do. You could not expect Amory's motive to be philanthropic. He is in for one of two reasons, revenge or profit. The profits would come by purchasing silence and that may not be entertained. The old maxim, "Se sure you are right and then go ahead." Until then, lay low. Faithfully yours, John D. Chimmins.

After receiving this letter Mr. Philbia, nevertheless, accepted Amory's retainer.

TEICHMANN DIDN'T GIVE OUT THE REPORT.

Teichmann took the stand. He said he

TRICHMANN DIDN'T GIVE OUT THE REPORT.

Following the reading of the letters,
Teichmann took the stand. He said he
first met Amory last July in the office of
Talbot J. Taylor & Co., and from him got
the company's reports to the Railroad
Commission and copies of other papers
and documents relating to the company.

Q. Were you asked to examine these documents? A. I was. Mr. Taylor, for whom I
was doing work at the time, telegraphed to
me inquiring what I would charge to make
an examination. He didn't say of what.
I replied that my fees were 35 an hour and
expenses. He told me charges had been made
against the Metropolitan, that he was financially interested and he wanted me to find out
if the charges were true. I worked four
weeks, about, doing the work in Mr. Taylor's
office.

Q. How many copies of your report did

weeks, about, doing the office.

Q. How many copies of your report did you make? A. There was the original and four copies. One went to Mr. Hertle, one to Mr. Amory, two to Mr. Taylor and I kept one, which I still have.

Q. In that report on your examination you say: "I find that the company has largely overvalued its assets, omitted a number of liabilities, paid, dividends not earned, disposed of part of its stocks and bonds without consideration, shows such receipts and dispursements which do not agree with other statements and made conflicting statements, claiming to have a surplus on June 36, 1800, of 35,403,465.62, while I find liabilities to exceed assets by \$18,974,885.10, a difference of some \$24,000,000, and generally it has its reports and statements in such a state as to make a complete examination of the books necessary. Now, then, did you charge up the debts of lesser companies? A Yes, everything that was before me.

Q. And did you put over against that liability the asset of the property and franchises of the lesser companies. A. No, it was not in the documents.

Q. Well, had that asset been credited, there'd have been a surplus of more than \$24,000,000 ASSETS LEFT OUT OF CONSIDERATION
